

AMENDMENTS TO THE DRAWINGS

The attached two sheets of drawings include changes to Figures 1-3. These sheets, which include Figures 1-3, replace the original sheets including Figures 1-3. In Figure 1 reference numeral 66 has been added, and in Figures 2 and 3 reference numeral 52 has been added, consistent with the amendments to the specification.

REMARKS

Claims 1-20 have been canceled. New claims 21-47 have been added. Claims 21-47 are pending in the application. The new claims are consistent with the specification.

Submitted concurrent with this response is a declaration signed by the second inventor, Mr. Juhan Kim.

Claims 1-20 were rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The Examiner indicated that the claims would be allowable if rewritten or amended to overcome the rejections. New claims 21-48 more distinctly claim the attachment of the powder reservoir to the first frame and the attachment of the first rod to the first frame; the attachment of the coolant reservoir to the second frame and the attachment of the second rod to the second frame; and further define the skirt structure.

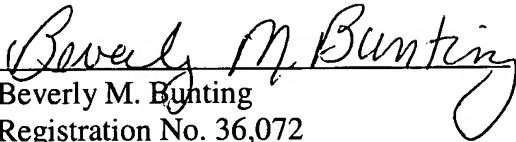

Therefore, it is respectfully submitted that new claims 21-48 are allowable over the rejection under 35 U.S.C. §112.

Based on the above, Applicant submits that the claims are in condition for allowance, which allowance is respectfully solicited. If the Examiner finds to the contrary, it is respectfully

requested that the undersigned in charge of this application be called at the telephone number given below to resolve any remaining issues.

Respectfully submitted,

Beverly M. Bunting
